

How Get Outdoors Works

There are fifteen “site markers” – wooden posts with a unique etching attached – that are hidden in local and state parks in Lebanon County. Visit your local library to register for the **Get Outdoors** program, and you’ll receive a guidebook, called a **Ledger**, and a rubbing sheet that you can use to record your discoveries. In the **Ledger**, you’ll find clues to follow that will help you locate each one of the site markers on your hikes.

When you find the site marker, you’ll see the etching with a 4-digit code. You can use your rubbing sheet and rub over the sheet with a crayon or pencil to reveal that site marker’s artwork and code, **but make sure you remember the 4-digit code** by taking a picture or writing it down. You can enter the code online using the **Beanstack** app to receive credit for that hike. The program ends on **Saturday, August 15**, and all hikes must be recorded no later than **Saturday, August 22** to receive a participation prize and earn entries into the prize drawing.

Partnering with

Dig Up a Story at Your Library!

You can **Dig Up a Story** this summer by visiting any **Lebanon County Library**, reading books about tools used to dig up ancient treasures, industries that shaped our journey through history, and even a few dinosaurs! **Lebanon County Libraries** are offering rewards for readers — log your reading minutes and **GO Lebanon!** site markers in the **Beanstack** app to make them count and earn amazing prizes. And there are many free library programs that were planned just for you!
